ACCESS A WORLD OF KNOWLEDGE

As a student or employee at the university, you have access to all Aarhus University Libraries. We are 26 small and large libraries, geographically distributed all over the country but most are located in Århus. In this booklet you will find our address and location.

Aarhus University Libraries are there for you to support education, research and learning. You are particularly attached to the library of your faculty or department, and here you will be offered induction and guidance in the library’s many offerings.

Aarhus University Libraries give you access to millions of electronic articles, books and databases - material just to read, download or print from wherever you find yourself in the world.

At all the libraries you will find well-appointed studio seats, group rooms and reading rooms. We welcome you to a good study!

We look forward to seeing you at the library and are ready to help!
01 The State and University Library
Victor Albecks Vej 1
8000 Århus C
