# History of Science Archives Index to Records

**Center for Science Studies**

Ny Munkegade, building 1520 • DK-8000 Aarhus C, Denmark [www.css.au.dk](http://www.css.au.dk)

## Introduktion

Center for Videnskabsstudier ved Aarhus Universitet råder over en større mængde arkivalier af videnskabshistorisk art. Selvom centeret kun i få tilfælde aktivt har gået ind i at sørge for, at arkivmateriale blev overdraget til centerets varetægt, så har det igennem tiderne modtaget materiale af vidt forskellig art fra flere forskellige sider. Det er hensigten med denne registrant at give forskere et overblik over, hvad der findes i arkiv og i hvor høj grad, det er registreret. Det er centerets håb, at så mange som muligt vil få glæde af materialet i forskningsmæssig henseende.

Forskere kan få adgang til materialet ved henvendelse til centeret til bibliotekar Susanne Nørskov. Materialet lånes ikke ud, men det er muligt at anvende det på stedet. Forskere, der får adgang til arkivmaterialet forpligter sig til at aflevere et eksemplar af publikationer hvori, materialet er blevet benyttet, ligesom reference til centeret i publikationerne naturligvis er påkrævet.

## Hvordan man bruger registranten

Registranten er inddelt i to dele; den første indeholder en liste over arkivmateriale fra en række danske institutioner eller foreninger, mens den anden er ordnet alfabetisk efter efternavnet på den person, arkivmaterialet stammer fra. Begge dele indeholder materialet af uens karakter; det er således højst forskelligt fra arkiv til arkiv, hvor meget materiale, det indeholder, ligesom også arten af materialet svinger.
