The **Thesaurus** is a controlled list of terms/concepts arranged alphabetically and hierarchically (in broader/narrower and related terms).
The thesaurus is helpful if you need ideas for search terms.

Use **OR** to broaden your search and retrieve records containing any of the terms you include in your search.

child* OR adolescen*   in   Anywhere

AND ▼   abus* OR neglect* OR violen*   OR   [   ]   in   Anywhere

AND ▼   [   ]   [   ]   in   Anywhere

Truncate your search terms: abus*=abuse, abusive, abused etc.

⊕ Add a row   ⊖ Remove a row

Limit to: ☐ Peer reviewed ⓘ

Publication date: All dates ▼

Start by searching **Anywhere**. If it returns too many irrelevant titles, you can choose to search **Abstract** or **Subject Headings**

Use **AND** to narrow your search and retrieve records containing all of the terms you include in the search.

Limit to Peer reviewed material. Be aware that books and book chapters won't be included in the search result if you tick off this box.

In **Recent searches** you can find your search history and combine your previous searches
